1. Introduction

The Worldpay Credit Card Payments app for Shopify makes it quick and simple to integrate Worldpay payments within your Shopify stores, giving you a comprehensive suite of payment options and security features:

- **Fast installation:** Clear, succinct documentation speeding up development time
- **Lowest possible PCI DSS burden:** Reach and maintain PCI compliance with minimum effort
- **24/7 support:** Payment incident support is available 24/7, and support is available 24/5 for most other issues. Contact your Worldpay support representative or our customer service team on 0800 096 3997

Overview of Worldpay plugin features

The table below lists the main features of our plugin:

Features	Description
Supported credit cards	Visa, MasterCard, Maestro, American Express, Discover*, JCB*, Cartes Bancaires*
Supported 3DS credit cards	Visa, MasterCard, Maestro, American Express
Access checkout Web SDK	Take payments and still qualify for SAQ-A – the lowest PCI compliance level – with Worldpay Web SDK
3DS authentication	3D secure authentication (strong customer authentication)

Note: The list of features offered by the Worldpay credit card payment app is determined by the newly launched Shopify payment API. We will add more features as Shopify APIs support them.

Please note that Discover/Diners, JCB and Cartes Bancaires are not supported by 3DS within Access Worldpay yet.
